

COLD CASE INVESTIGATION UNIT

Dear Investigators

Welcome to the advent investigation case of Who Killed Carol Singer.

As with all of our investigation games this has been created for you by a qualified Police Detective. Our aim is to bring you an experience which mirrors real life investigations.

You will find enclosed a mixture of 24 evidential updates, one for each day beginning on December 2nd. This investigation will then unravel throughout December as though everything is happening in real time.

The evidence sources are a combination of physical exhibits such as statements, photos etc and digital media such as news broadcasts, phone recordings and covertly recorded footage.

You should find it initially difficult to understand the relevance of some of the evidence however read, digest and as the month goes on the picture will become clear.

The best way to begin is to familiarise yourself with our victim and identify any suspects. Try to establish where each suspect was at the time our victim disappeared and you'll soon find yourself ruling them in or indeed out.

As the story builds you will learn more and more information about the suspects. Be sure to double check your sources and cross reference alibi's before making any decisions.

In this case there are a potential 12 suspects. The crime may have been committed by one or more, it's up to you to find out.

You'll find some daily guidance from our narrator DS Briggs. Each day he will introduce the evidence to you and will be working behind the scenes to gather more. Don't let him down, if you don't crack the case he doesn't get paid!

First things first. This is your 1st day of content.

On the 1st December you should visit us at www.coldcaseinvestigationunit.com and come to the Advent Investigation page where you will find your Day 1 video link. (Its towards the bottom of the page so have a good scroll down and you'll find it)
Have a look then sit back and relax with the Daily Retriever newspaper.

Let the investigation begin!

If you hit any problems or issues please get in touch via info@coldcaseinvestigationunit.com and we will do our best to help you.
